LPCMC Specialist Qualifications

Specialist Certification

- **Certified Credit & Financial Analyst (CCFA)** (higher grade)
- **Certified Credit & Financial Examiner (CCFE)** (highest grade)

The LPCMC's professional qualification is the most focused and highest; globally credible and recognized skills anyone in credit management and financial industry need in order to be regarded and referred to as core credit and financial analysis specialist.

Top Credit and Financial Analytic Engineering

CCFA/CCFE Qualifications: Programmes for top elites and credit granting organizations designed to help experienced business credit management top-notch, banking and financial executives to expand their global perspective and lead at a higher management level – showing characteristics of a habit of professional leadership, analytical aptitude, and engaged business community citizenship.

Why Going For CCFA Or CCFE?

From the United Kingdom to the rest of the world, employers seek out holders of LPCMC's CCFA or CCFE qualification to lead their credit granting business organizations to sustainable success.

The reason is not far-fetched: they know that CCFA and CCFE holders are strategic thinkers, revolutionary business drivers with high ethical integrity, strong enterprise risk management know-how and the right business, investment, and financial acumen.

How It Is Earned

The LPCMC's recognized and accredited professional specialist qualifications in credit and financial analysis can be earned by fresh or experienced graduates, University (or equivalent) undergraduates, a member of a globally recognized professional body who holds an appropriate qualification and is responsible for credit management and financial analysis audit at the workplace.

How People See You

LPCMC Qualification provides confidence to employers of labour, industry regulators, credit market players, and professional colleagues that its holder has capacity, competence, academic colloquium, and specialist caciquism in the field covered by the qualification – credit management and financial analysis.

Real-World Learning Experience

CCFA and CCFE examinations are important. However, part of what makes LPCMC Qualifications so valuable is that it gives you the opportunity for real-life application of your learning in your current role – if you are already working in the financial business environment. This is a real plus as it means you'll already have had some hands-on experience by the time you achieve your qualification.

Professional Skills In Credit And Financial Analysis

The professional skills module in CCFA and CCFE examinations are designed to develop the complete range of ethical and specialist skills that employers told us they need. By introducing and exposing our students to such a realistic business situation, we're doing everything we can to make holders of LPCMC qualification shine with employers, recruiters, and be really credible in the workplace.

How Long Does It Take To Qualify?

This largely depends on what qualifications and work experience student have prior to registering with us. However, we are passionate about giving as many people as possible the opportunity to gain LPCMC's world-renowned credit management and financial analysis qualification - so you start at the level that's right for you – CCFA which is a higher grade, or CCFE the highest grade.

We are flexible with students that have existing qualifications in the field of credit management and financial risk analysis which match the skills and knowledge needed for either CCFA or CCFE Qualification. Such students may be eligible for exemptions from some of our specialist examinations.

The quickest way to qualify is to work and study at the same time. If you do, you could qualify in as little as two or three years.

Students can check if they are eligible for any exemptions by contacting us on this email: londoncredit@lpccredit.co.uk

You Can Work Anywhere In Credit and Financial Industry

Choosing to study the CCFA or CCFE Qualification gives you the flexibility to work in any sector of credit and financial industry - because the qualifications are recognised and respected all over the world as the world economy has since moved away from cash economy to credit economy regime.

The underlying news is that employers in credit and financial industry in every country of the world are actively seeking professionals with LPCMC's qualification. This is because they know that a CCFA or CCFE qualification holder has been trained to the highest professional, ethical and super specialist standards - and have skills that add immediate value to their organisations. They are also aware that LPCMC policy of maintaining and keeping to quality assurance and standard prescribed by the accreditation organization that accredited its programmes, which is Accreditation Services for International Schools, Colleges & Universities (ASIC) is a robust plus.

Therefore, our qualification is structured to give employers what they really need from their credit management and financial analysis specialist. So when you qualify, you'll be exactly what top organisations are looking for - and you'll be in demand all over the world, including your own country.

So What Are You Waiting For!

The CCFA or CCFE Qualification gives you the expert and specialist skills to make envious impact in any workplace in credit and financial industry. It includes a practical experience opportunity - so when you qualify, you'll already have at least two-or-three years' hands-on experience. This makes you incredibly employable and valuable to credit industry employers - and gives you the confidence to get your career in credit management and financial analysis off to a flying start.

The Skills You Need To Go Far

From here in the United Kingdom to any other country anywhere in the world, there is no exclusively focused and comprehensive curriculum proudly designed for industry-relevant study of credit management and financial analysis, the standard of which is at par with any university's Master's or Doctoral degrees programme, than what we have here at the LPCMC, UK. This simply means that we have more paths to success than anyone else. Go ahead and start at the right level for you, and begin your CCFA or CCFE Qualification journey today.

If You Are Just Graduating From The University: This is the way to go...

When you choose to study CCFA or CCFE Qualification with LPCMC or through its affiliate in your country, you have entered into the world of corporate elites who do not look for opportunities, rather opportunities looks for them. We say with confidence that we are the global leader of competence to certify in credit management and financial analysis. There is nothing else we think about everyday than inventing and re-inventing credit management learning curriculum that represents the ever dynamic expectations of credit and financial industry employers in every country of the world.

What's more, our accreditation by Accreditation Services for International Schools, Colleges & Universities (ASIC), an accreditation institution licensed by the British Government, make our CCFA and CCFE qualifications a sought-after as it creates confidence in the mind of our students. So, your decision to enroll for any of these specialist qualifications is a perfect move that will shape your present life and your life in future.....even as we keep moving ahead to think of the future for your ultimate benefits – and our future generation of students.

Programme Context And Purpose

Any credit management and financial analysis-related specialist qualification programme should be designed to provide students with a thorough grounding in key skills and knowledge prevalent in credit management within both the financial services and non-financial services sectors. There must be an injection of a significant technical and theoretical element to a programme of this nature – particularly if, as is the case here, the programme is a specialist programme. That said, credit management and financial analysis covers a range of disciplines and subject matter, and it is important to maintain strong learning focus within the programme.

London Postgraduate Credit Management College students are equipped with enduring knowledge and skills that allow them to work as first-class credit and financial analysts, examiners, managers/directors, administrators, officers and modellers in any industry. Students are equipped with critical thinking and analytical capacities that can be applied to any credit and financial management situation, as well as personal transferable skills such as corporate governance communication, teamwork, and the ability to effectively use technology.

The 21st Century workplace demands credit and financial analysts, examiners, administrators, managers and directors who are capable of understanding the professional and ethical expectations of credit and financial businesses that can generate sustainable value for both business and society, as well as the international, cultural and social contexts within which the credit and financial services industry operates.

In this context, the overall purpose of the CCFA and CCFE certification programmes is to provide specialist skills that is academically challenging, developing in students a broad and comparative understanding of theory and practices relevant to the need of both credit and financial and non-financial industries (with a particular emphasis on credit management and administration, credit risk modelling, applied corporate financial management, and regulation).

Our students are also equipped with academic, business and social skills that allows them to be lifelong learners and responsible citizens able to contribute and make a difference in the world of credit management and financial analysis. Our focus is on lifelong learning, equipping our students with the knowledge, skills and qualifications to be successful throughout their career and life.
